Published quarterly by and for the Faculty and Alumni of the Medical College of Georgia.
Supported by the Alumni Association and the Medical College.

TO THE ALUMNI

The annual meeting of the Board of managers of the Alumni Association was held in Augusta, February 1, 1958. We received with regret Dr. Pund's announcement of his retirement as President of the Medical College of Georgia effective July, 1958. He was urged to reconsider, but after being assured his decision was final, the matter was not pressed.

The Alumni, Faculty, Medical Profession of Georgia and the people as a whole are indebted to Dr. Pund for his long, untiring and invaluable services and contributions to the Medical College of Georgia. He has given of his time and efforts freely, and has aided beyond measure in seeing the school through what has been a trying period of transition. I feel free to speak for the Alumni in wishing for Dr. Pund many years of healthy relaxation and retirement. He assures us of his continued interest in the school to which he has contributed so much, and his willingness to serve when called upon. Also, he has expressed a desire to continue his activity in the interest of the Foundation. It was the unanimous feeling of the Board of Managers that he should continue in his present capacity in relation to the Foundation.

The annual banquet at the Medical Association of Georgia meeting will be held in Macon, Monday night, April 28, 1958. Following the Savannah banquet last year, there were complaints that the affair was too crowded as to time. This was due to an effort to comply to the night schedule of the Medical Association of Georgia's scientific program. The Macon Alumni will have charge of all arrangements this year, and it has been suggest-

WALTER BROWN, M.D.

ed that the entire evening or as much thereof as necessary be utilized for the Alumni party, without regard to conflicting programs. However, those of us who desire, should feel free to divide the evening in order to attend the scientific session.

The Macon Committee on arrangements requests, wherever possible that banquet tickets be bought before the hour of the party; as this will greatly facilitate preparation of food, beverage, seating arrangements, etc.

During the last year 804 Alumni became active members (paid their dues). This number is nearly fifty percent of those living, and approximately double the membership of any previous years. There are now 1815 living Alumni. We urge your continued interest and participation in the affairs and activities of the Medical College of Georgia.

The Board of Managers voted
(Continued on page 23)

PARADE OF PROGRESS

THE DEPARTMENT OF GROSS ANATOMY

By Harry Raybuck, Ph. D.

As is true with other departments in the Medical College, the Department of Gross Anatomy has also experienced many changes during these past four years of expansion. New teaching quarters located on the second floor of the new Administration Building provide more space than was available in the Newton Building and accommodate the increased student body. One large laboratory is now used for dissection, offering excellent facilities for good work. Adjacent to the laboratory is a combination student lounge and museum. Although much new equipment has been obtained, the old but sturdy and reliable slate tables remain as a link with the past. The tables which have served as a resting place for many cadavera, have been familiar to graduates for almost half a century. They are as serviceable as ever.

As you have probably noted from previous reports, the curriculum of the first and second years has undergone many changes. The course in Gross Anatomy is given during the first half of the freshman year, beginning in September and concluding in February. Students are in the laboratory five mornings a week and two hours on Saturday. The course runs concurrently with Microscopic Anatomy thus affording the student greater opportunity for correlation of these two divisions of Anatomical Science. The anatomy course formerly presented in the Sophomore year which consisted of cross section, topographic, and radiological anatomy has been deleted from the curriculum. Today the

more significant and beneficial portions are incorporated into the single first year course.

The principal teaching of Gross Anatomy is centered upon dissection. It is in this undertaking that the student is first exposed to scientific investigation. Here he begins to learn for himself discipline and technique. Above all he is afforded the opportunity to develop his own capacities. The course is taught on a regional basis and is divided into five sections: the upper extremity, the head and neck, the thorax, the abdomen and pelvis, and the lower extremity. At the end of each section the student receives an oral examination covering this dissection. This method of examination is unique, and the Medical College is one of the few schools employing this testing device—a method which permits maximum demonstration of knowledge by the student. Throughout the course a certain amount of clinical correlation is presented to emphasize the important and significant relationships of anatomical science to clinical medicine. This is probably best evidenced in co-operation with the Department of Radiology. View boxes are present in the smoking lounge where the student may at his leisure observe many different x-rays of the particular section that is being dissected at that time. In addition, with each section, a member of the Radiology staff presents and discusses certain anatomical principles pertinent to the radiological examination of that particular region of the body.

Dr. Lane H. Allen heads the

Gross Anatomy Laboratory.

Department, having joined the faculty in 1935. He has served as chairman since 1945. Other members of the teaching staff are Dr. Harry E. Raybuck, who joined the faculty in 1953, and Dr. Tim Weatherford, who came to the Department in 1956. The staff is augmented by Dr. Emil Hummel and Dr. D. R. McRae who serve as visiting members.

Many former staff members familiar to countless alumni have become well known in the fields of Anatomy and Medical Education. Among them are Eliot Clark, Professor Emeritus of anatomy, University of Pennsylvania; Fred Mettler, Professor of Anatomy Columbia University; Charles Noback, Associate Professor of Anatomy, Columbia University; the late E. M. Bradley, Professor of Anatomy, Southwestern University; William F.

Alexander, Associate Professor of Anatomy, St. Louis University; and Warren Andrews, Professor of Anatomy at Bowman Gray Medical School. Of course no listing would be complete without mentioning the name of G. Lombard Kelly, who served the Medical College so devotedly and competently in his dual capacity of Professor of Gross Anatomy and Dean—later as the College's President.

Research interests in the Department are wide and varied. Dr. Allen is carrying on a research program concerned with the morphological and functional properties of the lymphatic system. Dr. Raybuck's major interest is the autonomic nervous system, particularly certain aspects of experimental embryology concerned with the development of the nervous system. Dr.

Weatherford's endeavors also are in the field of the nervous system. His investigations are specifically concerned with histo-chemical studies of the effects of vitamin deficiencies on the nervous system.

Continued expansion of both teaching and research facilities constitute the major aspiration of the staff for the future. Increasing

demands of post graduate medical education also are anticipated.

We should like to conclude this brief report of our activities with a welcome to the graduates and other physicians interested in medical education to visit the department at any time.

Figure 1—Mr. Kuglar, Student Fellow, and Mrs. League, Technician, examine an animal that has received a tumor transplant. This laboratory is in the surgical pathology area of the Eugene Talmadge Memorial Hospital.

DEPARTMENT OF PATHOLOGY

By A. B. Chandler, M. D.

Recently a group of plaster models of human disease was placed again on display in a new wing of the Murphey Building. These models, still excellent depictions of disease, were brought over from France in 1834 by Dr. L. A. Dugas. This union of the old with the new serves to mark a period of much progress in the Department of Pathology. Major

changes in the department have paralleled the remarkable growth and expansion of the college in recent years. Laboratory, research, and teaching facilities have been greatly expanded. The faculty also has increased so that there are now seven full-time and six visiting faculty members in the department.

In 1953, Dr. Pund relinquished

Figure 2—A group of sophomore students examine the gross material of a case with Dr. Stoddard. This student laboratory is in the Murphey Building.

the chairmanship of the department in order to assume his new duties as President of the College. In 1954, Dr. L. D. Stoddard, then at the University of Kansas Medical School, accepted the appointment as Professor and Chairman of the department. The Eugene Talmadge Memorial Hospital had already begun to rise and shortly after the arrival of Dr. Stoddard, new construction was started on the Murphey Building. In the same year, Dr. A. B. Chandler and Dr. F. R. Skelton became full-time members. The following year, Dr. A. W. Bailey, who had been on leave of absence in the Navy, and Dr. W. G. Rice were added to the staff. The division of clinical pathology, which had been part of the Department of Medicine, became incorporated in the Department of Pathology. Dr. W. L. Sheppard has remained in charge of the clinical laboratories.

The pathologists in the immediate area of Augusta are also associated with the school. Drs. C. P. Avato, E. V. Hastings, M. Ihnen, D. F. Mullins, Jr., W. R. Murphy, and F. G. Stephens are all visiting faculty members in the departments. These men give generously of their time in the teaching program.

In the Murphey Building several alterations and additions have been made. In addition to more office space and a new conference room, there is a newly equipped histological laboratory, an animal surgery room, quarters for animals, a specialized laboratory for histochemical work, and a chemical laboratory. The formerly large teaching laboratory has been converted into six smaller laboratories in order to facilitate small group teaching. These laboratories are used dur-

DEPARTMENT OF PATHOLOGY

ing the summer months by students for research projects.

The clinical laboratory, surgical pathology laboratory, and autopsy area are located in the Eugene Talmadge Memorial Hospital. The clinical laboratories have excellent facilities including such modern labor saving devices as an electronic cell counter. Recently, Dr. W. D. Boring of the Department of Microbiology has received a joint appointment in the Department of Pathology. Dr. Boring is currently supervising the microbiological work in the clinical laboratory. In the surgical pathology area a Tumor Registry is being started and it is anticipated that important information will be obtained with the cooperation of physicians throughout the state. In the autopsy area there are three autopsy tables and an adjoining morgue. An important addition to the staff has been a staff embalmer, Mr. H. M. Conner. Mr. Conner assists in the performance of autopsies, and is curator of the museum. Since embalming is done on every autopsied body, a more thorough and complete study can be made of every case.

Following the precedent established in this country by Drs. Welch and MacCallum at Johns Hopkins, the case method of teaching has been inaugurated in the second-year course of General Pathology and Human Disease. Dr. Stoddard, who is responsible for this program, received his training with a Hopkins graduate, Dr. W. D. Forbus of Duke University Medical School. In order to study disease as it naturally occurs the case method is ideal. Some 200 cases are arranged into broad categories of disease. With each case there is available to the student a copy of

the protocol including the clinical history and anatomical descriptions, the important gross organs which have been dissected, and a group of selected histological slides. These cases are thus practical examples of disease that the student will encounter later on. The laboratory teaching is done in groups of 16 - 18 students in the six teaching laboratories. Some of the periods are designed for individual study by the student, and on these days isolated gross specimens and histological slides are available. Recently the clinical laboratory exercises have been incorporated in this course. During the year several sessions are devoted to performing basic clinical laboratory tests. The class is further divided into groups of four in order that the students may participate in the current autopsies. The groups are on call in rotation just as the house officers. Some of these cases are presented by the groups to their classmates in the form of clinico - pathological conferences. During the past few summers, several students have worked in the department as student fellows either on a research project or on the autopsy service. This is considered one of the most important phases of our educational program.

The residency program offers opportunity for development of academic careers and preparation for the practice of pathology. Instead of the minimal four years as required by the boards, the department offers a six year residency program. Some of the residents have been conducting investigations and have received support from various agencies. Dr. W. A. Sherrer, while a fellow of the Damon Runyon Foundation, investigated experimental

DEPARTMENT OF PATHOLOGY

hepatic tumors in the rat with the use of radioisotopes. Dr. R. B. Skelton and Dr. J. F. Brooks have recently conducted an experiment on the combined effects of ACTH and nitrogen mustard on the adrenal glands of the rat. With an expanded and lengthened residency program it is anticipated that every resident will be able to carry on investigative work.

Several members of the department are engaged in research covering a wide field. Dr. Stoddard with Dr. Chick, a third-year resident, and Mr. H. C. Sussman, a student fellow, have conducted investigations of experimental hypoxic and hemoglobinuric nephrosis in the rabbit. The experimental lesion that has been produced appears more consistently and more nearly resembles the human lesion than any other known experimental lesion. Dr. Rice has a substantial research program primarily directed toward the immunologic specificity of human neoplasms. Such techniques as electrophoresis, tumor transplantation in animals, and fluorescein labeling of antibodies are being utilized. Other experimental work on disturbances of growth is being done by Dr. Bailey. He has initiated a study concerning conditioned and autonomous neoplasms of the thyroid gland produced by the administration of antithyroid drugs in rats.

Recently Dr. Chandler has devised a technique for producing a thrombus *in vitro*. This technique utilizes a moving circular tube to produce a thrombus as it occurs *in vivo*. In association with Dr. Sherrer, an experiment has been carried out on extramedullary hematopoiesis by the use of tissue transplantation. In collaboration

with Mr. Conner, methods have been devised for vascular injection studies that also permit histological study of organs. Dr. H. J. Peters, who had part of his residency training in this department, became a full-time member of the faculty in July of 1957. He is especially interested in the field of neuropathology and is currently carrying out investigations of myelinization and senile pigmentary changes of the brain. Before moving to New Orleans in 1956 to become Director of the Urban Maes Research Foundation, Dr. Floyd Skelton developed a technique for producing endogenous endocrine hypertension in the rat. Two student fellows, Dr. James Guilbeau and Mr. Joseph Nichols, participated in this work which has received national recognition.

Reference was made earlier in this article to Dr. L. A. Dugas, the first Professor of Pathology and Physiology in this school. In the span of Dr. Dugas' career, pathology evolved from a science based largely on gross anatomical descriptions to a discipline much as we know it today. Virchow revolutionized medical science with his concept of cellular pathology. Cohnheim and his colleagues made significant contributions in the field of experimental pathology while Koch, Welch, and many others initiated the era of microbiological pathology. Dr. Dugas would identify these influences were he to visit the college today and he would undoubtedly recognize that the goal remains: The better understanding of human disease.

FACULTY NEWS

ANESTHESIOLOGY

Dr. P. P. Volpitto attended the American Society of Anesthesiology in Los Angeles, Cal. on Oct. 14-18, 1957. He was Moderator for Regional Anesthesia, and presented a paper entitled "Anesthesia for Neurosurgery".

* * *

BIOCHEMISTRY

Doctors H. W. Willoughby, W. K. Hall, and H. D. Wycoff attended the Biochemical Section meeting of the American Chemical Society in New York, N. Y., Sept. 9 - 13, 1957. Dr. Willoughby presented a paper, "Metabolism of Corticosterone-4C14 in the Dog."

New Facilities: After 50 years of faithful service, the old Biochemistry lab benches in the student lab have been retired in favor of new ones.

* * *

ENDOCRINOLOGY

Dr. W. E. Barfield attended the Postgraduate Medical Assembly of South Texas, in Houston, Tex., July 15 - 17, 1957. He presented three papers, "Functional Uterine Bleeding", "Premenstrual Tension", and "Hirsutism in the Female".

Dr. R. B. Greenblatt attended the Southern Pediatric Seminar—Ob-Gyn Week, in Saluda, N. C., July 22 - 27, 1957. He presented a paper, "Gynecologic Endocrinology", and was invited to give the Oren Moore Memorial Lecture.

Dr. R. B. Greenblatt attended the Laurentian Hormones Conference, Mont Tremblant, Quebec, Sept. 4, 1957; and visited the Jewish General Hospital in Montreal, Sept. 9, 1957. He gave a paper and lectured on "Clinical Aspects of Sexual Abnormalities in Man".

On Sept. 11, 1957, Dr. W. E.

Barfield attended the London Academy of General Practice and Ontario Academy of Medicine in London, Ontario, Canada. He gave a paper entitled "Hormonal Management of Menstrual Disorders".

In New York, N. Y., Oct. 7 - 8, 1957, Dr. R. B. Greenblatt and Dr. Sarah Clark attended the New York Academy of Science; and gave a paper "Effects of New Progestational Agents in Human Gynecological and Adrenal Disorders."

Dr. R. B. Greenblatt presented a paper, "Ovarian Dysgenesis" at the American College of Surgeons Post Graduate Course in Ob-Gyn, in Atlantic City, Oct. 14 - 18, 1957.

At Jewish Hospital, St. Louis, Mo., Nov. 4, 1957, Dr. Greenblatt gave a paper, "The Ovary as a Source of Androgens". He also led a Round Table on "Pseudohermaphroditism" and gave a banquet speech entitled "Some Tidbits of Biblical Lore".

Dr. Greenblatt visited the V. A. Hospital in Lake City, Fla. Nov. 14, 1957; and presented a paper, "Recent Advances in Endocrinology".

On Dec. 7, 1957, Dr. Greenblatt gave a paper "La Maladie Microkystique des Ovaires", before Le Societe Medicale de Montreal, in Montreal.

At Parke-Davis & Co., Detroit, Dec. 11, 1957, Dr. R. B. Greenblatt discussed "Norlutin — A Revolutionary Concept in Progesterone Therapy".

* * *

MEDICINE

Awards and Honors:

Dr. Virgil P. Sydenstricker,
Professor Emeritus

Was awarded a special plaque for outstanding contributions to medicine in Georgia.

FACULTY NEWS

Dr. Thomas Findley,
Professor and Chairman of Department of Medicine

Named to the Executive Committee of the Advisory Board for Medical Specialties representing the American Board of Internal Medicine.

Member of Residency Review Committee in Internal Medicine of the American Medical Association.

Dr. A. C. Witham,
Asst. Professor of Medicine
Secretary of the Georgia Heart Association.

New Members and Promotions:

Dr. Thomas Findley has become Chairman of the Department of Medicine.

Dr. Curtis H. Carter, former Associate Professor of Medicine to Professor.

Dr. Victor A. Moore, Jr., former instructor in Medicine to associate.

Dr. W. H. Waugh, Associate (Research) in Medicine.

Dr. W. E. Bellamy, Clinical Associate in Medicine in charge of Dom. Medicine.

Dr. Sarah L. Clark, Clinical Instructor in Medicine.

Dr. S. Holmstock, Clinical Instructor in Medicine.

Dr. E. J. Thompson, Clinical Instructor in Medicine.

Dr. F. Z. Lanari, Research Trainee.

Dr. A. C. Witham attended the Conference of Cardiovascular Undergraduate Training Grant Program Directors in Sun Valley, June 8 - 9, 1957.

The following members of the Department of Medicine attended the Georgia Heart Association meeting, Savannah, Ga., Sept. 13-14, 1957:

Dr. A. C. Witham

Dr. Curtis H. Carter

Dr. B. S. Gallaher

Dr. H. H. Schafer

Dr. M. C. Gordy

Dr. F. Z. Lanari

Dr. H. Kimmerling

Dr. Thos. Findley attended the American Board of Internal Medicine, Los Angeles, Cal., Sept 10-14, 1957.

Dr. Curtis H. Carter attended the Trudeau Society in Macon, Ga., Sept. 1957.

Dr. Thos. Findley attended the American Clinical and Climatological Assn., Hot Springs, Va., Oct. 28 - 30, 1957. He gave a paper: "Hypertension Produced by Adrenal Enucleations".

At the Central Society for Clinical Research, Cleveland, O., Oct. 28 - Nov. 2, 1957, Dr. C-S. Wright gave a paper entitled "Thrombocytopenic Purpura".

Dr. Thos. Findley attended American College of Physicians (Committee Meeting) in Philadelphia, Pa., Nov. 6 - 9, 1957.

Dr. J. A. Owen attended Southern Medical Association, Miami Beach, Fla., Nov. 10 - 14, 1957. He gave a discussion "Hyperparathyroidism and other Hyperphosphaturias".

Dr. Thos. Findley attended the Council for High Blood Pressure Research, Cleveland, Ohio, Nov. 22 - 23, 1957.

Those who attended the Regional Meeting of the American College of Physicians, St. Simons, Ga., Oct. 4 - 5, 1957 were:

Dr. A. C. Witham

Dr. C. H. Carter

Dr. J. A. Owen

Paper: "Satisfying the Obese Patient".

Dr. Thos. Findley spoke on "Some Metabolic Functions of the Kidney" to the Dugas Club in Augusta, Oct. 8, 1957.

Dr. John A. Owen presented a paper, "New Horizons in Diabetes", at the Washington County

FACULTY NEWS

Medical Society in McDuffy, Ga., Oct. 15, 1957.

Dr. C-S. Wright attended the Pee Dee Medical Society in Florence, S. C., Oct. 17, 1957. He presented a paper entitled "Leukemia in Transition".

At the Tri-State TB Conference in Ponte Vedra, Fla., Oct. 18 - 21, 1957, Dr. C. H. Carter gave a paper: "Fifteen Consecutive Re-admission Cases of TB".

Dr. C-S. Wright attended Bunts Educational Institute of the Cleveland Clinic, Cleveland, Ohio, Oct. 23 - 24, 1957. He presented two papers: "Indication for Splenectomy 1957", and "Thrombocytopenic Purpura".

The following attended the American Heart Association, Chicago, Ill., Oct. 25 - 29, 1957:

Dr. A. C. Witham

Paper: "Relationship of Right Ventricular Ejection Dynamics to Heart Sounds and Murmurs".

Dr. H. H. Shafer

Dr. H. Kimmerling

* * *

MICROSCOPIC ANATOMY

Dr. Jefferies spent last summer at the University of Indiana as a Research Associate in Zoology studying the biochemistry of *Paramecium aurelia*.

Dr. Heuser spent the month of November in Baltimore working on human embryological material at Carnegie Laboratory of Embryology.

* * *

NURSING

Mrs. Mary Atkins has been promoted from Instructor to Assistant Professor in Nursing.

Mrs. Margaret E. Boyd was promoted from Instructor to Assistant Professor in Nursing.

Miss Mary Edith Cheney now heads the Dept. of Mental Health and Psychiatric Nursing.

Miss Edna M. DeBruler, Associate Professor in charge of Public Health Nursing.

Mrs. Nellie T. English, Assistant Professor of Medical-surgical Nursing.

Mrs. Barbara Hoffman Reich, Temporary Instructor in Med-Surg Nursing.

* * *

OBSTETRICS - GYNECOLOGY

Dr. Richard Torpin attended the American College of Obstetricians and Gynecologists Regional Meeting, Washington, D. C., Oct. 4 - 6, 1957.

Dr. Richard Torpin lectured on "Human Placentation" to the Walter Reed Hospital staff and to the Staff and Students at Howard University, Oct. 7 and 8, 1957.

Dr. Frank C. Story, Jr., has been appointed Clinical Instructor in Obstetrics and Gynecology, (Visiting).

* * *

PATHOLOGY

Dr. Walter G. Rice, Former Associate Professor in Pathology was promoted to Professor.

Dr. A. W. Bailey, former Associate in Pathology was promoted to Assistant Professor.

Dr. W. G. Rice attended the Society for Experimental Biology and Medicine, Richmond, Va., Oct. 11 - 12, 1957. He presented a paper: "Electrophoresis: Agammaglobulinemia".

* * *

PEDIATRICS

Dr. Preston Ellington attended lectures on "Practical Pediatric Hematology" at Children's Hospital in Philadelphia, Pa., June 3, 1957.

Dr. Frank P. Anderson attended the South Carolina Medical Society Meeting, Anderson, S. C., August 13, 1957. His paper was "The Respiratory and Rehabilitation Center Program".

FACULTY NEWS

Dr. Frank P. Anderson gave a paper: "Prenatal Influences", at the Pee Dee Medical Association in Florence, S. C., Oct. 17, 1957.

Dr. Victor C. Vaughan, III, has been appointed Professor and Chairman of the Department of Pediatrics.

* * *

PHARMACOLOGY

At the American Society for Pharmacology and Experimental Therapeutics, Baltimore, Md., Sept. 3 - 6, 1957, Dr. V. L. Sydow gave a paper: "A Pressor Blocking Action of Reserpine". Dr. Sydow also attended the John J. Abel Centennial.

Dr. R. P. Ahlquist was Visiting Professor in the Department of Pharmacology and Physiology at Wayne State University, School of Medicine, Detroit, Michigan for two weeks, October 14 - 26, 1957. He presented 8 student lectures on Autonomic Drugs, 2 Seminars on Research and Teaching and 2 general lectures to the faculty and student body.

Dr. Phillip E. Leveque, Assistant Professor of Pharmacology resigned effective September 1, 1957 to accept a position as Assistant Professor in the Department of Pharmacology, University of Puerto Rico, San Juan, Puerto Rico.

* * *

PHYSICAL MEDICINE

Mrs. Geneva R. Johnson attended the National Conference of the American Physical Therapy Association. She gave a paper: "Physical Therapy in Geriatrics".

Dr. Jack B. Mohny and Mr. Bart Johnson attended the Georgia Gerontological Association, Athens, Ga.

Miss Mary Lou Boyd attended a one-week's course at Warm Springs, Ga., Sept. 30 - Oct. 5, 1957, on "Rehabilitation of the

Patient with Anterior Poliomyelitis".

Mrs. Judith Stiles attended the National Conference of the Occupational Therapy Association, Cleveland, Ohio, Oct. 21 - 25, 1957.

Publications:

Geneva R. Johnson, Dr. Jack B. Mohny, Beatrice A. Levy, "The Organization and Development of a Physical Medicine and Rehabilitation Service with the Framework of a Welfare Agency." Physical Therapy Review, August.

* * *

PHYSIOLOGY

Awards and Honors:

Dr. W. F. Hamilton, Professor and Chairman of the Physiology Department:

Member of Board of Publication Trustees of American Physiological Society.

Chairman, Research Committee of Georgia Heart Association.

Chairman, Medical Advisory Committee of the Life Insurance Medical Research Fund.

Member of Physiology Study Section, NIH.

Member, Policy Committee, NSF.

Honorary Fellow of American College of Cardiology.

Lectureship at Tulane and Richmond.

Dr. Philip Dow, Professor of Physiology:

Member, Nominating Committee of Basic Science Section of AHA.

Member, Board of Directors of American Heart Association.

Member, Board of Directors of Georgia Heart Association.

Chairman, Steering Committee of Circulation Group of American Physiological Society.

New Members and Promotions:

Dr. Darrell Davis is a new

FACULTY NEWS

member of the Physiology Dep't. He is Assistant Research Professor.

Dr. Irving Greene and Walter J. Brown are Research Associates in Physiology.

The following members of the Physiology Dep't. attended the Fall meeting of the American Physiological Society, Iowa City, Iowa, Sept. 3 - 6, 1957:

Dr. W. F. Hamilton.

Dr. Irvin Green

Paper: "Multiple Time-Concentration Curves in Urine and Renal Venous Blood after Rapid Injection into the Renal Artery."

Dr. Jin Min Soo

Paper: "The Effect of Perfusing Pressure on the 'Circulating Volume' of the Isolated Canine Kidney Perfused with a Kerosene-Oil Mixture."

Dr. William H. Waugh

Paper: "Renal Flow of Oligocythemic Blood Containing Hemoglobin as a Function of Arterial Pressure."

Dr. Carleton H. Baker

Paper: "Hemodynamic Changes in the Adrenalectomized Dog Infused with Plasma."

Dr. Philip Dow

Paper: "Adaptation of the Recording Dye Densitometer (Baltimore) for Work in the Near Infrared Region."

Dr. John W. Remington

Paper: "Blood and Plasma Specific Gravity Changes During Acute Alterations in Hemodynamics in Splenectomized Dogs."

Dr. Philip Dow attended the American Heart Association Meeting, Chicago, Ill., Oct. 25-29, 1957. He shared in the report of the nominating committee of the Basic Science Section. Dr. W. F. Hamilton and Dr. J. W. Remington also attended the Am-

erican Heart Association meeting.

* * *

PSYCHIATRY

Dr. E. James McCranie, Professor of Psychiatry, was promoted to Chairman of the Department of Psychiatry and Neurology, Jan. 1, 1958.

Dr. Antonio Jose DeLiz Ferreira, Asst. Professor of Psychiatry.

Dr. Robert F. Kraus, Clinical Instructor in Psychiatry; Courtesy.

Dr. E. James McCranie attended the Association of Southern Professors of Psychiatry in Washington, D. C.

Dr. Boyd D. Sisson attended the Georgia Psychological Association, Savannah, Ga. He presented a paper entitled: "Test Behavior of Endogenous and Exogenous Mental Defectives".

Dr. John T. Manter attended the Southern E.E.G. Society at Miami Beach, Fla.

Dr. John W. Kemble attended the American League Against Epilepsy, New York, N. Y., and the Association for Research in Nervous and Mental Disease, New York, N. Y. He acted as Assistant Examiner for the American Board examinations in Psychiatry and Neurology in New York City.

New Facilities: The psychiatric ward of Talmadge Memorial Hospital is now open. The Department of Psychiatry and Neurology is cooperating with the Georgia State Department of Health in the operation of its intensive treatment program. Under this program the state pays for short-term, intensive treatment of medically-indigent psychiatric patients. The objectives of the program are to provide psychiatric treatment to those patients who can benefit from

FACULTY NEWS

short-term intensive therapy, and enable them to return to productive work or effective functioning in their communities, after only a short period of hospitalization. A milieu, or environmental, approach to treatment of patients on the ward is used.

* * *

RADIOLOGY

Dr. John F. Dillon, has been appointed Assoc. Prof. of Radiology. He is in charge of radiotherapy and radioisotope work.

Dr. Russell Wigh and Mr. Jack Morgan attended the American Roentgen Ray Society Meeting, Washington, D. C., Oct., 1957.

At the Radiological Society of North America, Chicago, Ill., Nov. 16 - 22, 1957, Dr. Russell Wigh presented an exhibit: "Metastatic Lesions to the Large Intestine".

New Facilities:

1) Equipment has been installed in the orthopedic room within the operating suite which permits bi-plane films during such procedures as hip-nailing.

2) Angiocardiographic equipment is now being installed which will permit obtaining as high as 12 films in 1 second in each of two planes. Allied equipment for this work will also permit X-ray exposures at 1/1000 of a second.

3) There has been a gradual increase in the type of isotope equipment. This is permitting an expansion in the scope of work.

4) The Van de Graff therapy unit which operates in the range of 2 MEV is being effectively used and permits greater efficiency in some areas of radiation therapy.

5) Radiology will shortly have available an image intensifier. This unit increases the brilliance of the fluoroscopic screen approximately 300 times. This permits

motion picture photography of the images on the fluoroscopic screen.

Course Changes: An elective in Radiology is available for either 3rd or 4th year medical students. This is of 4 weeks duration. Briefly it introduces the students to some problems in technique, variational anatomy, fluoroscopy, film interpretation and radiotherapy and radioisotopes.

Added to the course in Roentgen Anatomy is a group of translights which are reproductions of X-ray films. These translights are placed in specially provided view boxes in the student day room and the type of material presented parallels the area of gross dissection.

* * *

SURGERY

Dr. Hoke Wammock attended the International College of Surgeons Meeting in Chicago, Ill., Sept. 9 - 12, 1957; and presented a paper: "Radical Surgery for Intraoral Cancer".

At the Georgia Heart Association, Savannah, Ga., Sept. 13 - 14, 1957, Dr. David P. Hall presented an exhibit: Pump Oxygenator.

Dr. W. H. Moretz visited the Charlotte Memorial Hospital Staff, Charlotte, N. C., Sept. 17-18, 1957. He gave a paper entitled "Diagnostic Peritoneal Tap".

Dr. Floyd E. Bliven, Jr., attended the Georgia Orthopedic Society meeting in St. Simons, Ga., Oct. 18 - 21, 1957. He gave a paper: "Vertebral Epiphysitis".

A paper entitled "Recent Trends in Abdominal Surgery" was presented at the 8th District Medical Meeting, Valdosta, Ga., Oct. 8, 1957, by Dr. W. H. Moretz.

At the American College of

FACULTY NEWS

Surgeons meeting in Atlantic City, Oct. 13 - 18, 1957, Dr. G. W. Smith presented a paper: "A New, Simple Technic for Pallidectomy".

Dr. Hoke Wammock attended the American Cancer Society (Cancer Coordinators), New York, N. Y., Oct. 26 - 29, 1957. He gave a paper entitled, "Medical School Cancer Teaching Program in USPHS".

Dr. F. E. Bliven attended the American Society for Surgery of Trauma, Hot Springs, Va., Oct. 31 - Nov. 2, 1957. He gave a paper entitled "Mass Tibial Casualties".

Dr. G. W. Smith presented a paper: "Treatment of Myasthenia Gravis by Carotid Denervation", at the Southern Medical Association, Miami Beach, Fla., Nov. 10 - 14, 1957.

The Georgia Medical Society met in Savannah, Ga., Nov. 12, 1957. Dr. W. H. Moretz attended and gave a paper: "Recent Trends in Abdominal Surgery".

Dr. R. G. Ellison attended the Southern Thoracic Surgery Association meeting in New Orleans, La., Nov. 29, 1957. His paper was "Experimental Total Pulmonary Valvectomy".

At the Savannah Symposium on Cancer, Savannah, Ga., Dec. 20, 1957, Dr. W. H. Moretz gave a paper, "Cancer of the Colon", and was Moderator for a panel on Cancer of the Breast.

Publications:

An article was published in the Atlanta Journal - Constitution Magazine, Nov. 24, 1957 about the recent work of Dr. George Smith. It was a report on the Electrolytic coagulation treatment for Parkinson's disease, which has produced an 80 per cent improvement in the majority of cases treated.

GENERAL

Dr. Rufus F. Payne spoke to the Columbia Medical Society in Columbia, S. C., July 8, 1957. He attended the Board of Regents Education Committee, Atlanta, Ga., July 9, 1957; and gave the dedication speech at the Health Center at LaFayette, Ga. the same day. Dr. Payne also visited the Board of Regents Offices in Atlanta, Ga., on July 18, 1957.

There will be twenty fellowships available to support student research projects in the biological sciences related to medicine, in public health, in cancer studies and in rehabilitation. They will carry an average stipend of \$600.00 for the summer work. Final selection of fellowship recipients will be made on a competitive basis. A faculty committee composed of Dr. R. B. Dienst, Chairman, and Doctors Kemble and Dow as the other two members, awards the fellowships on the basis of merit of the project, scholarship of the student and interest of the sponsoring faculty member.

The Endocrinology Dept. of MCG was host for the 9th annual Postgraduate Assembly of the Endocrine Society. The course was held at ETMH, the faculty consisting of 24 eminent clinicians and investigators from various parts of the country in the fields of endocrinology and metabolism. The course was approved by the American Academy of General Practice for 35 credit hours in Category 1. The program covered the various endocrinopathies, with emphasis on the clinical aspects, demonstration of laboratory tests, presentation of cases, and question and answer panel discussions. It was designed to cover the main aspects of diagnosis

ALUMNI NEWS

WEDDINGS

On October 5, 1957, Miss Penelope Ann Martin was married to Dr. Wallace Wilson Fleetwood, Jr., '53, at Grace Episcopal Church in New Orleans. The couple reside in New Orleans, Louisiana, where Dr. Fleetwood is in practice.

Miss Vera Anne Weathers, of Spartanburg, South Carolina, became the bride of Dr. William Clifton Sanders, Jr., '54, of Cordele at Trinity Methodist Church in Spartanburg on December 21, 1957.

Christ Church Cathedral, Ottawa, Canada, was the scene of the wedding of Miss Julia Elizabeth Puddicombe and Dr. LaMar Scott McGinnis, Jr., '54. Their marriage took place on June 29, 1957.

Miss Barbara Ruth Mercer, of Macon, Georgia and Dr. James Harvey Beall, '55, of Oxford, Georgia, were married November 5, 1957 at the Ingleside Methodist Church in Macon. Dr. Beall is now serving as a lieutenant in the medical corps of the U. S. Navy in Coronado, California.

The wedding of Miss Sandra Neita Yeomans and Dr. Louis Peter Leopold, '55, of Savannah, was an event of September 2, 1957. They are now living in Augusta, where Dr. Leopold is a resident in Obstetrics and Gynecology at the Eugene Talmadge Memorial Hospital.

Miss Ruby Mae Brinson, of Tifton, Georgia, was married to Dr. Francis Milton Lindsey, '56, of Macon, Georgia. The wedding took place at the First Presbyterian Church in Tifton, on September 21, 1957. At present Dr. Lindsey is on the staff of the Milledgeville State Hospital.

On August 24, 1957, Miss Mary

Louise Strickland became the bride of Dr. Chenault William Hailey, '56. Their wedding took place at the First Methodist Church in Valdosta, Georgia.

Miss Marian Bell and Dr. James Walter McCann, Jr., '56, were married on June 8, 1957, at Oakhurst Presbyterian Church in Decatur, Georgia.

The marriage of Ethel Crawford Bonner of Raleigh, and Dr. Lucius Clyde Sheehan, Jr., '57, of Macon, was an event of June 15, 1957. The ceremony was at First Baptist Church in Raleigh, North Carolina. After their wedding trip to Florida, they took an apartment in Macon, where Dr. Sheehan is completing his internship at Macon Hospital.

Miss Patricia Anne Payne, daughter of Dr. and Mrs. Rufus E. Payne '33, was married to Mr. Ernest Calder Fokes, Jr. of Columbus. Their wedding was an event of December 21, 1958 in the Reid Memorial Presbyterian Church of Augusta. The couple are living in Augusta, where Mr. Fokes is studying at MCG. He is a member of the class of 1961.

The First Presbyterian Church at Aiken, South Carolina, was the scene of the wedding of Miss Sally Hughes and Mr. Peter Michael Payne, son of Dr. and Mrs. Rufus E. Payne, '33. The ceremony took place on July 10, 1957.

BIRTHS

Dr. and Mrs. W. S. Flanagan, '40, Augusta, Ga., Son, Robert Monroe, August 16, 1957.

Cmdr. and Mrs. Lynn E. Anthony, '44, Norfolk, Virginia, Son, Michael Earl, July 10, 1957.

Dr. and Mrs. E. Lee Fry, '45, Son, David Lee, November 11, 1957.

ALUMNI NEWS

Dr. and Mrs. Louis Manganiello (Dr. Carol Pryor, '47), Augusta, Ga., Daughter, Victoria Raimonda, September 22, 1957.

Dr. and Mrs. Ralph Newton, Jr., '49, Macon, Ga., Daughter, Irma Clark, October 19, 1957.

Dr. and Mrs. Thomas H. Lamson, '49, Troy, N. Y., Daughter, Alice Hunter, June 20, 1957.

Dr. and Mrs. James S. Maughan, '49, Valdosta, Ga., Son, James S., Jr., December 19, 1957.

Dr. and Mrs. Dearing A. Nash, '51, Savannah, Ga., Daughter, Lynn Dearing, Nov. 15, 1957.

Dr. and Mrs. Hugh Lumpkin Coffee, '54, Forsythe, Ga., Son, Hugh Lumpkin, Jr., August 18, 1957.

Dr. and Mrs. Jim Shanks, '55, Fort Sam Houston, Texas, Daughter, Barbara Lee, December 27, 1957.

Dr. and Mrs. Ray D. Webb, '55, Springfield, Ga., Son, Roy Darwin, II, September 9, 1957.

Dr. and Mrs. J. W. Burnham, Jr., '55, Macon, Ga., Son, Matthew Charles, Sept. 3, 1957.

Dr. and Mrs. R. A. Parrish, Jr., '56, Memphis, Tenn., Daughter, Joyce Ann, August 10, 1957.

Dr. and Mrs. Robert G. Rizza, '56, Oakland, Calif., Daughter Katherine Georgia, Aug. 14, 1957.

Dr. and Mrs. Hewlett Connell, '57, Macon, Ga., Son, George Boyce, III.

GENERAL

Dr. F. B. Pickett Day was observed in Ty Ty, Georgia on June 30, 1957 in honor of Dr. Pickett, 1897, who was named Georgia's Practitioner of the Year earlier by the Georgia Medical Society. Members of local and state medical societies and nurses associations were present to pay tribute to Dr. Pickett.

Dr. W. W. Hillis, Sr., '09, was

honored at a special service at the Sardis, Georgia, Baptist Church, in recognition of his contributions to the growth and progress of the community during his 47 years of service. In July, 1954, he opened a clinic with his son, Dr. W. W. Hillis, Jr. '53.

The first step in the fruition of a "cherished dream" was made when Dr. H. C. Mealing, '22, formally gave 15 acres of land to the North Augusta Baptist Memorial Hospital Corporation on which to build a \$2,000,000 hospital. The hospital will ultimately have 150 beds, but will be given a 50-bed start, with additional floors to be added later.

A MCG alumnus, Dr. C. P. Savage, '25, 15 years a member of the city council was candidate for the office of Mayor of Montezuma, Georgia.

Dr. Charles B. Fulghum, '30, was named chief of staff president of the Baldwin County Hospital in August 1957, at the annual election of officers. Dr. O. C. Woods, '29, headed the staff during the past year.

At the annual meeting of the Georgia Medical Society, Dec. 10, 1957, Dr. W. Osler Bedingfield, '30, Savannah, Ga., was named president elect for 1959.

At the formal organizational meeting of the Macon-Bibb County Association for Mental Health, Dr. Shannon Mays, '30, Macon psychiatrist, discussed how to improve methods and services in research, prevention, diagnoses and treatment of mental illnesses and handicaps. Dr. Tom Hall, Jr., '46, also a Macon psychiatrist, discussed how to develop a coordinated citizens movement to work toward the improvement, care and treatment of the mentally ill.

The new president of the Wo-

Dr. C. Ray Ivey, Jr., '56, and Dr. A. M. Phillips, Jr., '56, have opened offices together at 1624 Coleman Avenue, Macon, Ga., for the general practice of medicine.

DEATHS

Dr. Edward J. Smith, 1899, of Hahira, Georgia, died due to myocardial infarction, on August 1, 1957.

Dr. William A. Whitlock, '01, succumbed to lobar pneumonia at the age of 90. He died at Anderson, South Carolina on February 24, 1956.

Dr. Albert Glen Wortham, '04, of Franklin, Georgia, died in Lagrange City-County Hospital on October 22, 1957.

Dr. William P. Turner, '04, died on April 2, 1957 of a cerebral hemorrhage. Dr. Turner's home was Greenwood, South Carolina.

Dr. Percy L. Reynolds, '06, died December 31, 1956.

Dr. Walter Elliott Simmons,

ALUMNI NEWS

'09, of Metter, Georgia, died in the Candler County Hospital on August 30, 1957 after a brief illness.

Dr. William C. Young, '11, died August 18, 1957 of carcinoma of the stomach.

Dr. Marvin Albin Acree, '12, died at his Calhoun, Georgia, residence on December 4, 1957.

Dr. Robert S. Durham, '13, retired physician of Columbia, South Carolina, died October 5, 1957. His death, due to carcinoma of the lung, occurred at his home.

Dr. W. R. Schnauss, '16, deceased on December 22, 1956.

Dr. Ralph S. Torbett, '19, died April 28, 1957 as result of injuries received in an auto accident on April 1.

Dr. Frank G. Smith, '22, of Wilson, North Carolina is deceased.

Dr. H. B. Haisfield, '24, of Pensacola, Florida, is dead. Notification of his death was received April, 1957.

Dr. Benjamin A. Wilkinson, '24, died April 12, 1957. He was living in Tallahassee, Florida.

Dr. Ellis M. Bond, '25, died October 3, 1957, of myocardial infarction in Greenup, Kentucky. He had been Medical Director of the Airplane division of Curtiss-Wright Corporation in Louisville, Kentucky.

Dr. Burl B. Lane, Jr., '27, of Zachery, Louisiana, deceased on September 17, 1957.

Dr. John T. Norvell, Jr., '31, died in Augusta, Georgia on December 30, 1957, of diabetic complications.

Dr. Frank M. Daniels, Jr., '32, member of the staff of St. Francis Hospital and of Greenville General Hospital, died in Greenville, South Carolina of heart failure.

Dr. Homer Head, Jr., died December, 1957. Buried, Monroe,

Georgia, December 19, 1957.

Dr. Edgar D. Shanks, '46, of Atlanta, Georgia, died January 3, 1958.

Dr. John T. McDermid, '48, of Ft. Pierce, Florida, succumbed to cancer of the pancreas on November 22, 1957.

Dr. Edward B. Pressly, '50, died in St. Luke's Hospital in St. Louis, Missouri, on December 12, 1956. He was a resident of Sparta, Illinois.

Dr. George Tracy Olmstead, Jr., '52, died at St. Joseph's Hospital in Savannah, Georgia, on December 19, 1957. He was a resident of Savannah.

Mrs. John Thomas Arnold, of Parrott, Georgia, died on May 19, 1957, in a Cuthbert hospital. She was the wife of Dr. John Thomas Arnold, class of 1900.

Mrs. Luvencia Mallard Mulkey, mother of Dr. Q. A. Mulkey, '09, of Millen, Georgia, and grandmother of A. P. Mulkey, '34, died October 26, 1957.

Mrs. J. Victor Roule, Sr., mother of Dr. J. V. Roule, '26, of Augusta, Georgia, died July 23, 1957 in Mansura, Louisiana.

Mr. John Benton Fillingim, father of Dr. David B. Fillingim, '34, died on November 29, 1957.

Mr. T. B. Carroll, Sr., died February 15, 1957 at his home. He was the father of Dr. T. B. Carroll, Jr., '37, of Hardeeville, South Carolina.

Mr. John William Shaw Miller, of Savannah Georgia, father of Dr. John M. Miller, '39, was killed in an automobile accident in Savannah on October 19, 1957.

Mr. M. J. C. Land died December 26, 1957, following a heart attack. He was the father of Dr. Polk Land, '42.

Mrs. David Calhoun Williams, whose son is Dr. David Calhoun Williams, Jr., '42, of Augusta,

Georgia, died August 20, 1957.

Mr. Clyde A. Wilson, Sr., resident of St. Simons, Georgia, died November 9, 1957. He was the father of Dr. Clyde A. Wilson, Jr., '43.

John Thomas Rogers, the infant son of Dr. and Mrs. T. E. Rogers, Jr., '43, Macon, Georgia, died in a Macon hospital on November 7, 1957.

Mrs. Mamie Cembry Coleman, died at her home in Unadilla, Ga., on July 1, 1957. She was mother of Dr. O. K. Coleman, '47, of Cordele, Georgia.

Mr. John S. Dodd, died in a Macon hospital on August 6, 1957. Mr. Dodd, a resident of Macon, Georgia, was father of Dr. William A. Dodd, '47, of Wrightsville, Georgia.

Mr. W. M. Lanford, died October 25, 1957, at his Stone Mountain residence. He was grandfather of Dr. Charles Lanford, '56, of Macon, Georgia.

Dr. L. Palmer Holmes, died October 29, 1957 following a heart attack. Dr. Holmes was Clinical Professor of Radiology at the Medical College of Georgia.

Dr. William Lorenzo Moss, former dean of Medical College of Georgia, died on August 12, 1957, in Athens, Georgia.

Dr. Raymond R. Paty suffered a heart attack and died at his home, August 8, 1957. He was former chancellor of the University System of Georgia.

Mr. Lucious Alexander Caldwell, father of Dr. Harmon W. Caldwell, chancellor of the University System of Georgia, died on September 16, 1957 at his home.

Mrs. Arthur Bleakley, of Augusta, died on November 29, 1957, after an illness of one month. Mrs. Bleakley was grandmother of Dr. Blakely Chandler, '48; and mother of Mrs. Alonzo Purdy, of the Admissions office.

TO THE ALUMNI

(Continued from page 2)

that the Alumni take an active interest in the appointment of a successor to Dr. Pund. A committee of Alumni will be appointed to study the matter, to consult with and co-operate with the Board of Regents. We feel that an outstanding man in the profession and one experienced in Medical College Administration

and one who will add prestige to the Medical College of Georgia should be named to this important position.

Walter Brown, President,
